

Melissa Henderson

● Product Strategist & Technologist · Product · Data · AI · Fintech

MELISSA@MELWRITES.COM
MELWRITES.COM

SUMMARY

Product strategist and technologist with 10+ years turning emerging technology into products people understand and adopt. Founder of Violet Verse, a decentralized publishing platform built 0→1; winner of a Vercel hackathon for Joy AI Agent; and an AI evaluation reviewer on RLHF projects for frontier AI labs. Combines formal training in data science, machine learning, and agentic AI with a track record of launching products and partnerships across AI, blockchain, and fintech ecosystems alongside engineers, researchers, and executives.

SELECTED PROJECTS

FOUNDER · 2022

Violet Verse

Led a decentralized content management system from concept to launch: Web3 wallet login, crypto tipping, and native-token rewards for readers and writers.

HACKATHON WINNER · 2026

Joy AI Agent

AI reading companion built into Violet Verse with v0 that adapts one Web3 article for four audiences. Won a Vercel hackathon in Miami.

IN PROGRESS

Project Athena

Research and prototype testing whether structured education helps creators produce higher-quality AI training and evaluation data.

EXPERIENCE

Interledger Technology · Digital Marketing Lead (Contract)

APR 2026 – PRESENT

- Leading the HubSpot implementation and CRM transformation across events, developer relations, partnerships, and business teams, standardizing reporting and overseeing a large-scale data migration and cleanup from Mailchimp using Snowflake.
- Leading “Open Payments Learning Month,” a go-to-market and education campaign driving developer adoption of an open standard for interoperable digital payments.
- Built and launched, with AI-assisted development, a multi-channel education system of 3 landing pages, 8 educational emails, 3 forms, and automated engagement flows, achieving a **65% open rate** and **~59% click-through rate**.
- Generated **530K+ social impressions** across developer and fintech audiences using gamified distribution tactics.
- Rebuilding the social media and communications workflow on Linear, Slack, and Google Workspace to scale content across the organization.

Mercor · AI Operations & Evaluation Reviewer (Contract)

NOV 2025 – PRESENT

- Evaluate model outputs and contribute to human-feedback and quality-assurance workflows used to improve AI performance and reliability, collaborating with machine learning engineers and AI practitioners.
- Provide structured feedback on proprietary research projects for leading frontier AI labs, applying domain expertise in marketing, sales, business, and new media.

GWU Bitcoin Academic Center (BTCinDC) · Advisor

JUN 2025 – NOV 2025

- Secured a **six-figure sponsorship from Block** (Square, Cash App, Bitkey) within about two months, from identifying the relationship and building sponsorship materials through negotiation and close.
- Organized and led Block’s **first closed-door briefing with U.S. Rep. Warren Davidson (R-OH)**; created the agenda and led the discussion. The meeting earned coverage in *The Block*, and Rep. Davidson went on to collaborate with Block on a de minimis tax exemption.
- Curated the BTCinDC panel and supported programming for an event featuring Michael Saylor, Sen. Cynthia Lummis, and Adam Back.
- Recruited and onboarded 5 students, created an intern operating process and Notion workspace, and led 12+ weekly strategy calls.

- Moonbeam Network & Foundation · Global Marketing Manager

JUL 2024 – AUG 2025

 - Launched Moonrise Points, a custom questing platform that attracted developers and DeFi traders across Ethereum, Solana, and Polkadot, contributing to a **30% increase in GLMR token price** within two months; partnered with exchanges including Coinbase and ran the influencer strategy.
 - Led product marketing and launch for DataHaven.xyz, overseeing naming, visual identity, the landing page, litepaper, and a messaging framework positioning it at the intersection of AI, privacy, and blockchain infrastructure.
 - Drove an **80% increase in traffic** across web, social, and newsletter channels with 100+ pieces of content tied to protocol releases, technical integrations, and developer relations.
 - Built on-chain data storytelling with research and analytics partners including Messari, Artemis, and Dune; managed campaign planning, budget, and performance measurement.
- Flow Blockchain · Marketing & Communications Manager (Contract)

APR 2024 – JUN 2024

 - Delivered marketing analytics and trend reports to the Head of Product to inform Product and Engineering decisions.
 - Supported go-to-market for Flow's move to EVM equivalence, including a developer launch page that drove a **50% increase in traffic** and a **72% return rate** among builders.
- SKALE Labs · Marketing Generalist (Contract)

JUL 2023 – MAR 2024

 - Delivered weekly social data reports and growth tactics against quarterly OKRs; secured coverage in CoinDesk, Bloomberg, and CCN within three months and managed C-suite briefings and speaking engagements.
- Scale AI · Marketing Expert (Contract)

DEC 2023 – MAR 2024

 - Assessed LLM reasoning through reinforcement learning from human feedback (RLHF), consistently earning 5/5 ratings for responses that outperformed the model.
- ApeWorX · Head of Community & Content

NOV 2021 – MAR 2023

 - Built the editorial calendar around GitHub releases for Ape, an open-source Python framework for smart contracts, and ran all content channels for Python developers, data scientists, and security professionals.
 - Launched partnerships with Yearn Finance, StarkNet, the Python Software Foundation, and the Ethereum Foundation, and managed a community of open-source contributors.
- G/O Media (formerly Gawker Media) · Senior Marketing Strategist

AUG 2019 – OCT 2021

 - Sold **\$2.5M** in creative sponsorships, high-impact media, and native content in 18 months for clients including Netflix, Nike, Samsung, Epic Games, Fidelity, and Cash App; led strategy on six-figure RFPs.
 - Led content strategy for The Root Institute, a Webby-nominated virtual event (2020, 2021).

EDUCATION & TRAINING

- The George Washington University — B.A., Political Communications
- Universidad de Santiago de Compostela — Study abroad, Advanced Spanish Literature
- Harvard Data Science Initiative — Agentic AI Certification, 2025
- Miami Foundation Academy — Data Science & Machine Learning Certification, 2026

SKILLS

- Product & GTM:** product strategy, go-to-market, launches, user research, partnerships, technical communication
- Data & AI:** Python, SQL, statistics, regression, model evaluation, RLHF, Snowflake, Power BI, Dune
- Web3:** Ethereum, Solana, Polkadot, DAOs, bug bounty and GitHub incentive programs
- Tools:** v0, Lovable, GitHub, VS Code, HubSpot, Figma, Webflow, Linear, Notion, Mailchimp, Meltwater

POLICY & ADVOCACY

Delegate, Women of Color in Blockchain Congressional Briefing, Capitol Hill (December 2025)
